SUMMARY

Product Designer with 1+ year of experience building community-driven platforms, event management systems, and digital products from concept to launch. Designed experiences used by 10,000+ users, supported 100+ live events, and contributed to flagship initiatives that generated 1,000+ registrations. Experienced in user research, interaction design, information architecture, prototyping, and design systems, with a Computer Science background that helps bridge user needs, business goals, and technical feasibility.

SKILLS

Design: User Research, Information Architecture, User Flows, Wireframing, Interaction Design, Prototyping, Design Systems, Accessibility, Usability Testing, Visual Design, Responsive Design, Design Thinking

Tools: Figma, FigJam, Adobe Photoshop, Adobe Illustrator, Notion, GitHub, VS Code, Framer.

EXPERIENCE

UI/UX Design Intern

01/2026-05/2026

Enigma Digital Consultancy: Awwwards-recognized design agency specializing in digital experiences.

- Contributed to multiple client projects, designing websites, branding elements, and high-fidelity mockups across different industries.
- Supported design execution for 3 client projects, focusing primarily on website interfaces and contributing to branding for one. Also assisted in structuring information architecture, improving content organization and user flow.
- Collaborated with team members to translate business requirements into cohesive and user-friendly digital experiences.

Product Design Intern [Oppskills Website](#) ↗

11/2025-01/2026

Brndfy(Formerly Market Mafiaa): Youth-focused marketing agency working with student communities and brands.

- Led end-to-end design of Oppskills(Subsidiary of Brndfy), a platform enabling communities and college clubs to publish events and streamline student participation.
- Designed a seamless one-click event joining experience, improving accessibility and user engagement.
- Contributed to a platform serving 10,000+ users and supporting 100+ live events through user-centric product design.

UI/UX Designer

06/2025-10/2025

iConnect GJUS&T: Student-led organization responsible for organizing college festivals

- Led the end-to-end design of the E-Summit 2025 website, from wireframes to high-fidelity UI, delivering a user-centric platform for one of GJUS&T's flagship entrepreneurship events.
- Contributed to achieving 1,000+ registrations by designing an engaging and conversion-focused event experience.

Projects

Student Laundry Marketplace App [Case Study Link](#) ↗

07/2025-09/2025

MyLau: Laundry App for Students & Bachelors

- Designed an end-to-end mobile marketplace experience enabling students and bachelors to easily discover, compare, and connect with trusted laundry service providers.
- Streamlined onboarding and booking journeys through user-centered workflows, improving usability and reducing friction across critical touchpoints.
- Built a scalable visual foundation using design tokens and color variables, ensuring consistent theming and maintainable design systems.

- Designed an end-to-end mobile learning platform that connects learners with tutors and mentors through personalized discovery, onboarding, and mentorship-matching experiences.
- Conducted user interviews and research to uncover key pain points, synthesized insights into personas and user journeys, and translated findings into actionable design decisions.
- Iterated on low-fidelity concepts through usability testing and feedback sessions, validating critical user flows before progressing to high-fidelity designs.

EDUCATION

Bachelor of Technology in CSE(Ai&MI)

11/2022-07-2026

Guru Jambheshwar University of Science & Technology, Hisar

ACHIEVEMENTS

Top 2% in Design, Innovation & Technology Course

09/2025

IIT Bombay, NPTEL

Topper in Understanding Design Course

02/2025

IIT Bombay, NPTEL
